ments of Section 1252
(Smart Metering) of the

On August 8, 2005, Pres-

age better utilization of
energy resources.

According to the Petition,
the Commission is
required to make a deter-
mination regarding
whether it is appropriate
to require each electric
utility to provide and
install time-based meters
and communications
devices for each of their
customers which enable
such customers to partic-
ipate in time-based pric-
ing rate schedules and
other demand response
programs. The types of
time-based rate sched-
ules that may be offered,
among others, include:

(i) time-of-use pricing, (ii)
critical peak pricing, (iii)
real-time pricing, and (iv)
credits for consumers
who enter into pre-es-
tablished peak load reduc-
tion agreements.
